“Covered” Services

The Health Fee covers many of the services at the Duke Student Health Center if medically indicated and ordered by a Student Health provider:

- Medical care for acute and chronic illness and minor injuries
- Complete physical exams
- Gynecological examination (does not include cost of associated lab tests, such as pap smear and STI screening)
- Some routine laboratory services including complete blood counts, urinalysis, tests for vaginitis, rapid tests for strep, mononucleosis, and pregnancy
- Administration of allergy/immunotherapy shots
- Travel counseling for academic and personal travel
- Basic nutrition consultation
- Basic physical therapy consultation and evaluation

Health Fee or Medical Insurance?

The Student Health Fee is a required fee of all students at Duke University. Services that are “covered” or “not covered” refers to the coverage under the Health Fee. Services that are “not covered” by the Health Fee may be covered by your personal medical insurance. Please be sure to always bring your medical insurance and prescription drug card to every visit to the Student Health Center.

Services “Not Covered”

If you are unsure whether a service is covered, please ask the staff of the Student Health Center business office prior to receiving the service. You are financially responsible for the following:

- Prescription drugs
- X-rays and other radiology studies; lab tests not listed to the left under “covered”
- Medical care provided in an Emergency Department, hospital, or other non-student health facility
- Care provided by specialist consultants, including those working within the Student Health facilities
- Dental care
- Routine eye exams
- Pregnancy care or deliveries
- Tests, procedures, and prescriptions not medically indicated or not ordered by Student Health providers
- Immunizations/titers required for matriculation and travel
- Eating disorder treatment
